**A Comfortable and Reliable Choice for
Managing Urinary Incontinence**

Well Lead silicone male external catheters (MEC) are self-adhesive sheath that are designed for the management of male urinary incontinence.

Features

- Soft, breathable silicone for enhanced comfort and optimal skin integrity
- Skin-friendly adhesive helps maximize wear time and helps prevent accidental detachment
- Transparent sheath for easy visual inspection of skin
- Free from natural rubber latex and no risk of latex-related allergic reactions
- A variety of design configurations and sizes meet specific needs

	Size(mm)	Cat. No.
Type I Standard : regular length & adhesive	25	F03A012510
	28	F03A012810
	29	F03A012910
	30	F03A013010
	32	F03A013210
	36	F03A013610
Type II Special : shorter length	41	F03A014110
	25	F03A022510
	28	F03A022810
	29	F03A022910
	30	F03A023010
	32	F03A023210
Type III Extra : longer adhesive than standard type	36	F03A023610
	41	F03A024110
	25	F03A032510
	28	F03A032810
	29	F03A032910
	30	F03A033010
	32	F03A033210
	36	F03A033610
